Subject: Re: Some action items from the morning meeting

I can answer question #2 - no. We have people that are not calling us back but no one has said 'no'

Subject: Some action items from the morning meeting

1 - we need to get updates out by 1500 today, but none for the weekend (unless something happens). So, we should have our call at 1400.

2 - has anyone said no to us for sampling? Not PADEP or Cabot, but us?

3 - send Cindy Caporale the contact info for the ERT and SERAS people and she can coordinate with them.

4 - Fort Meade asks if there's any priority for QA review of data on the FTP site? If so, they could use a key with the names and our station numbers for the samples. Den suggested that, absent other direction, they should start with the first 21 (CO&A) and then the rest. Clarify with Fort Meade if you can.

That's it for now :)
